However, be warned! You will be penalised by 2 points for every one you over-shoot.
For example, your total score will be out of 75 (15 shots).
If you think you will shoot a 70, you may nominate a handicap of 5.
However, if you shoot a 73, your final score would be $73+5=78$, over-shooting by 3 shots.
After applying the penalty, this would leave you with a final score of $75-(3 \times 2)=69$.
Members that have brought a prize take a prize from the table in the order of their final scores.

GOOD SHOOTING!
